Single Copy 10¢

This Side Of The Sun

By BILL RASHALL

This column has to be filled with words and inasmuch as Phat is away on a well earned two-week vacation this vicarious task has fallen on my shoulders.

NOW I do not have a wife like Mrs. G. who can write this column like Phat does when he is either too lazy or too tired; nor have I studied the "benches for Palm Springs campaign" conducted by Phat and I know less about popular tunes likely to hit the top of the "Hit Parade" but here goes, anyway.

MOST OF ALL more of us should take a greater pride in the appearance of our streets and the impression they make on visitors to our fair Village. City Manager William Alworth this week issued a plea for all citizens to take it upon themselves to see that the area, at least in front of their homes, is kept free of debris, cans, paper and other trash. In Holland several years before the war, there could be seen on the streets the good Dutch housewives proudly sweeping the area in front of their homes. Palm Springs has a street cleaning department but all of those employed there cannot keep our streets clean without the cooperation of Village citizens. Help keep the streets clean.

COMMUNISM CAN SUCCEED in this country! This is the collective opinion of many who have watched the ever enlarging picture of the Red menace to our way of life in this country. The reason for the statement is that Communism, prated about, shouted about and screamed about, by many of our most prominent citizens in this country, is believed by the complacent, as just a subject used by fanatics who have nothing else to talk about. That these people only chose the subject to gain for themselves the limelight of publicity and have private axes to grind, is the belief of many. However, of late there has become an awareness of the creeping danger. The average American citizen would not know a Communist if he came face to face with him or her. They assume many disguises both in speech and demeanor. What is needed by most of us is an education by the FBI or some other authority so that we would be more able to discover the "color" of these fellows who have changed their affections from Uncle Sam to Joe Stalin.

AT THE BEGINNING of every season during the last three years I have been here, agitating over moderately priced housing for the employed here begins to bubble and reaches a boiling point around Christmas time. Business men, civic leaders, organizations, all talk about the subject but no one ever does a thing about solving the perplexing problem. I take the last statement back. Something is started but never carried through to completion—usually the stoppage takes the form of a gigantic finance problem. Yesterday the wild thought struck me, that perhaps the Reconstruction Finance Corporation of the United States could, in some manner, mainly finances, help to find a solution here. I was right. RFC will finance such a project, if the city government studies the subject here and makes application for the amount of money it would have to borrow. I spent the Boss's money on a long distance call — now city councilmen, how about investigating the proposition thoroughly? Barney Hinkle, president of the Housing Authority of the City of Palm Springs, believes it can be done with concerted action on the part of the City Council and everybody in the city who should be vitally interested in the welfare of this community.

TRIBUTE TO a grand lady, Mrs. Nellie Coffman, who has never been known to turn a deaf ear to the plea of anyone in need, is recovering from a successful eye operation that may restore better vision to this grand person and mother. If the story of what she has done for the good of Palm Springs was written, it would make a tale woven in deep human feeling of all the good she has unselfishly done for the community.

THE SMART GUYS who tell others in authoritative whispers the horse they know is a cinch to win a race is quite comic more often than otherwise. One of our most prominent Villagers spent two days at Del Mar in company with several of the foremost officials of the Del Mar racing organization. For two days he listened to the advice of these men, did our Villager. At the end of that time not one of the horses came anywhere near winning a race until at last he blindly picked one of his own. It won. You can't beat 'em buddy. You just can't.

FIRST DAY OF SCHOOL ONLY HALF-DAY SESSION

Although it's back to school for the grade school pupils Monday, the session on that day will end at 12:20 p. m., according to Miss Katherine Finchey, superintendent of the Desert School District. "There will be no cafeteria lunches served on that day," Miss Finchey announced.

City in Control of Airport Sept. 15

To Build Open Air Theatre Near Cathedral City

Project To Occupy Seven Acres Will Open
January 15 at a Cost of \$120,000

An open-air theatre which will occupy seven acres of land and cost approximately \$120,000 will be in operation January 15, just south of Cathedral City, it was authoritatively learned yesterday.

The builder and operator of the new enterprise will be Thornton Howell, who owns several of these open-air movie "houses" in the state.

Bill Hillery, Cathedral City realtor, is reported to have arranged for the leasing of the seven acres of land on which the project will be erected.

THE "AUDITORIUM" will lie in a natural amphitheater on the northeast side of the road leading from Cathedral City to Thunderbird Ranch. The screen will be placed against a backdrop of mountains.

According to Frank Bogert, manager of Thunderbird Ranch,

and who is a personal friend of Howell's, work has already started on the new theatre.

BOGERT also reported that Howell owns the only franchise allowance for an open air movie "house" in the area that extends from Beaumont to Indio and that he chose the present location because he (Howell) felt that a theater in that part of the desert area was sorely needed.

Opening of an open-air theater, Bogert said, cannot be accomplished without a license from the holders of patents pertaining to sound and other technicalities involved in such an operation.

Too Bad

Traffic Violators Fail
to Heed Police Warning
Cited into Court

They meant what they said when they said it—the police did. Last week Chief of Police August Kettmann announced that the summer holiday of overlooking traffic violations in the Village was over.

This week, at least a half dozen good citizens either didn't believe the warning, forgot reading the item in the Desert Sun—or is it possible they didn't read this paper?—found citations for traffic violations on their windshields.

Most of the tickets were for illegal parking, none for speeding and one or two for double parking.

Some Duck!

Wild Bird Sits Down
On Hotel Swimming
Pool, Remains All Day

Swimmers in the pool at the Monte Cita Hotel rubbed the water from their eyes and took another gander.

Sure enough there it was swimming around at the other end of the pool, believe it or not, a wild Teal duck.

AT LEAST that's the story telephoned to The Desert Sun by Guy Anderson, manager of the swanky hotel.

"All day long Wednesday, that duck swam around our pool," declared Anderson. "When guests to the hotel swam toward it in an effort to touch and pet it, the duck would dive to the bottom of the pool," Anderson said.

HE ADDED that it would then swim underwater for the full length of the pool and then pop to the surface again, and complacently continue its own method of staying afloat.

George Diamond, owner of the Milwaukee Steak House near Cathedral City, tried for hours to catch the duck and then finally gave up exhausted.

"I GIVE UP," he announced. "The duck can raise one of its flippers if it wants to in token of victory."

The duck continued swimming.

"Peeping Tom"

Window Peeper Lose in
Village Frightened
Away by Husband

Ladies don't become frightened by reading this story but there's a "peeping Tom" loose in the Village.

He doesn't work at his job steadily but every now and then, the police receive a report from an irate husband or lady, that they have just driven one of those window-peepers off into the dark somewhere.

Monday, a well known citizen reported to police that he too had chased a "Peeping Tom" away from his wife's window. Further the police report read the man was barefooted.

Resume Drive For Publicity, Adv., Money

Campaign Launched by
Chamber of Commerce
To Increase Funds

Plans were announced today by the Palm Springs Chamber of Commerce for resumption at once of the campaign to raise additional funds for a community advertising and promotion campaign for the 1947-48 season.

Launched last June, the campaign drew contributions from 85 business firms for a total of \$8600 despite the fact that the drive had to be conducted at the end of the season due to conflict with other scheduled events.

THE MONEY was deposited in a special account and has been held for expenditure on recommendation of an advertising and promotion committee to be named by the president of the Chamber of Commerce. This group will be named within the next few days and will begin its study of the most productive ways to spend the funds.

Co-chairmen of the fund appeal were Elmo Purnell and Florian Bogd, the latter has just been nominated for president of the Chamber to succeed Jimmy Shea.

RESUMPTION of the campaign for the vital promotion funds will be marked this week by the mailing of letters by the Chamber of Commerce to all business holders of Palm Springs who have not yet contributed to the fund.

Contributions to the fund are requested on a sliding scale based on the gross business income. This schedule follows: under \$10,000, \$25 minimum; between \$10,000 and \$50,000, \$50 minimum; between \$50,000 and \$100,000, \$100 minimum; and over \$100,000, unlimited.

NOT ONLY has advertising in nationally-known magazines been discussed as a part of the community promotion plans, but the employing of a full-time photographer for the Chamber of Commerce, issuance of a new community folder, participation in principal celebrations in Southern California, and the furnishing of window displays for famous eastern and northwestern stores been discussed. These details will be worked out by the advertising and promotion committee whose recommendations will be submitted to the Board of Directors of the Chamber for final approval.

PARTICULARLY gratifying to the Chamber of Commerce has been the response from outside firms which do business here or who furnish the supplies for the stores and shops. Many generous contributions have been received from these firms, most of whom also are members of the Chamber of Commerce. Also notable was the response to the community advertising fund from firms not holding membership in the organization but which evidently are aware of the need of a concerted campaign.

Lunch Cost at High School Raised 5c

After reviewing a financial report on high school cafeteria operations for the school year 1946-47, the Board of Trustees, at its regular September meeting, held Tuesday evening, voted to increase the cost of basic lunches for high school students from 20c to 25c for the coming school year.

This action was prompted by a disclosure that the cafeteria operated at a deficit last year and by the fact that reports from the California State Department of Education announced a reduction in a federal subsidy for individual basic lunches of 4c; whereas, the high school district collected a federal subsidy of 9c on each lunch served last year, it will collect a subsidy of only 5c this year. If the trustees did not increase the cost of the lunch to students by 5c this year the deficit for the school year 1947-48 would, it is believed, exceed what is considered to be a reasonable allowance of district funds for the support of a school cafeteria.

THE BOARD also authorized the cafeteria management to increase the price of bulk ice cream from 5c a large scoop to 10c a large scoop or two scoops for 15c. Packaged ice cream will be sold at the same rates as before.

A "basic lunch" in the high school cafeteria consists of two ounces of meat, or equivalent, four ounces of fruits and/or vegetables, two ounces of bread or equivalent, 1/2 ounce of butter or butter substitute and 1/2 pint of milk. This is the "basic lunch" students will be expected

See LUNCHES, Page 4

Fingerprinting of Job-Seekers Here To Be Required

Persons with long criminal records are going to have hard sledding in Palm Springs from now on, according to Chief of Police August Kettmann.

Yesterday the Chief announced that the Palm Springs Employment Agency, owned and operated by Mrs. Jane Brown, has agreed to send all applicants for positions in the Village to the police department for fingerprinting.

IT WAS LEARNED that City Attorney Roy Colegate is now in the process of drafting a city ordinance that would require persons convicted of certain criminal acts to report their presence to the Police Department within 24 hours.

The agreement with the private employment agency followed similar agreements with the employment department of the Palm Springs Employers' Association, and acquiescence on the part of ninety per cent of the tavern and restaurant operators in the city, to send their help to the Police Department for fingerprinting.

THE ACTION of the Tavern keepers, restaurant operators and employment agencies will make it possible to raise the moral level of employees in the city," said Chief Kettmann.

The police head said that if fingerprinting had been in effect

in the city last year, several cases in which merchants were mulcted of large sums of money would not have occurred.

"IN THOSE CASES," continued Chief Kettmann, "these employees worked their way into a position of trust and then either absconded with large sums of money, passed numerous bad checks or cash books under the control of such persons, showed defalcations of large sums."

The agreement with the tavern keepers took place at a meeting held with the Chief of Police last Saturday.

CHECKING FURTHER, Kettmann learned from the Riverside County District Attorney's office that employment agencies may, if it is desired, require that persons sent out on jobs be fingerprinted.

THRILLED is Mrs. Anna Nordberg, 73, (right) of Copenhagen, Denmark, at the sight of such a bountiful country as the U. S. where there is plenty of food, clothing, and fuel. She is here for a reunion with her daughter, Mrs. Steffen Steffensen, for the first time in 17 years. (Desert Sun photo.)

Danish Mother Thrilled At Sight in This Country

First Airplane Trip at 73, Marvels at
Amounts of Food, Clothing, Life, in U. S.

Mrs. Anna Nordberg, 73 years young, isn't afraid of anything, but she is thrilled daily, at the things she is seeing in this country. Arriving here this past week after an aerial trip from her home in Copenhagen, via Milwaukee and Los Angeles, where she stopped for visits with her children. Mrs. Nordberg is now enjoying a reunion with her daughter, Mrs. Steffen Steffensen, the son-in-law and grandson, Preben.

The source of her amazement in this country, commonplace as it may seem to Villagers, are the plentiful amounts of the lowly potato, the abundance of meat on display, in restaurants and in the homes of her children, and believe it or not, the lavish use of electric lights.

SHE IS NOT AFRAID of anything that is man made now, because, behind her in experience are the long years of World War II, under the iron and brutal heel of the Nazis who invaded her homeland during the early period of World War II.

She doesn't like to talk about those ugly years of the war because it brings to her mind too many bitter memories. One of them was the death of her husband right after the Germans took possession of Denmark. The Danish mother declined to talk about that bitter episode but Mrs. Steffensen, her daughter, said her father's death occurred because the Nazis would not allow him room in a hospital during his last illness.

ANOTHER THRILL Mrs. Nordberg is anticipating is a flight from Banning to Los Angeles with her grandson, Preben, 25, World War II veteran, at the controls. She said that her first airplane trip across the Atlantic ocean from Copenhagen and then

See MOTHER, Page 10

True Dream

Villager's Horse Wins
At Del Mar, Pays Little

Mrs. Helen Kenaston, well known in the Village as the former Helen Lindsey, had one of her dreams come true Wednesday.

A thoroughbred racing horse which her husband, Jack Kenaston, gave her as a gift, "Huere Passe," raced and won at Del Mar Wednesday afternoon.

Mrs. Kenaston is well remembered as the manager of I. Maginn's shop, which was located in the El Mirador Hotel, before the war.

Frank Bogert, who reported the victory of Mrs. Kenaston's horse, said that she had urged all of her friends and acquaintances to back her horse in its maiden race Wednesday.

"She did a good job too," declared Bogert laughingly. "I bet six dollars across the board on Huere Passe and all I profited was a little more than four dollars. Everybody in the country must have listened to Helen," Bogert added.

Title to Village in 120 Days

Thousands of Dollars
Estimated, in Gift
to Palm Springs

Official transfer of the Palm Springs Airport, comprising 740 acres and many former army buildings, to the city of Palm Springs will take place September 15, City Manager William Alworth announced yesterday.

In approximately four months after the city assumes full responsibility for the operation of the airport and maintenance of buildings and land, War Assets is expected to give the city legal title to the properties.

ACREAGE CONSISTS of 640 acres in Section 18 and 100 acres in Section 13. Among the buildings situated in Section 13, are the machine shop, nose-hanger, warehouses and numerous other buildings which will be converted to airport use.

In addition to the buildings now in use by Mrs. Mary Nelson in the operation of the airport, the city will get many other buildings that will be used as they are needed for airport purposes. They, however, under the terms of the government transfer cannot be used for either manufacturing or industrial purposes.

FIVE of the buildings in Section 18 will be converted by Mary Nelson for the operation of a flight school in the near future. Two buildings will be used as housing accommodations for aviators forced to remain in the Village overnight because of mechanical trouble or bad weather. One of the warehouses located at the field will be used by the city as a city managed machine shop.

ALWORTH SAID that one building may be converted into city offices, possibly for the city

See AIRPORT, Page 4

Negotiating New Lease Agreement With Mary Nelson

The city of Palm Springs is negotiating its lease management agreement with Mrs. Mary Nelson on the operation of the Palm Springs Airport.

The lease under which she has been operating the airport was for a trial period of nine months. Experiences encountered, costs, maintenance and other factors will enter into the new lease-management agreement.

Vatican Choir To Perform in Hollywood Bowl

The Vatican Choir, direct from Rome, will give two concerts in the Hollywood Bowl, September 21 and 22.

The group of vested chorists, coming from the ancient Vatican on a good will tour of the United States, will sing the age-old liturgical chants of the Jewish and Protestant churches, as well as Catholic.

The PUBLISHER'S by OLIVER B. JAYNES Corner

SKYWRITING is now being augmented by the flying disk jockey. Located in a glider plane at the end of a 1000-foot tow line (away from the pilot ship's noise) the record player has a powerful amplifying device that makes the voice audible from the ground. It is being used over Los Angeles. . . . The air is gradually being filled with advertisements. It all started by towing streamers back of planes; used mostly where large crowds were assembled. . . . The flying Neon sign is another innovation. These lighter-than-air ships have huge, colorful electric signs on both sides—can change them at will, spelling out an advertising message. . . . Skywriting is again in full swing over the nation's largest city, according to The New Yorker. Newest trick is spelling out signs with two planes working together thus completing the last letter before the first has blown away. Two pilots can write Pepsi-Cola in letters a mile high in seven minutes. This company, by the way, has a contract this year for 4178 single inscriptions and 988 dual inscriptions, to stretch the necks of citizens of the U. S., Canada, Mexico and Cuba. . . . Objection to this medium of advertising is that it often distracts motorists.

NEW HIGHWAY SIGNS which will show the population of Palm Springs at 7213 will be erected on the highways leading into the Village. Newcomers, arriving in the season, will be due for a surprise. We might erect our own sign nearby, giving the WINTER population which is estimated at something like 18,000. Better still—why don't we erect a big sign at the junction of Highways 99 and 111, on both ends, advertising Palm Springs. They should point out that it is only a little farther to go via 111 and see the famed resort. There is nothing to indicate that it is not a 20-mile sidetrack. It would help if we only had two signs saying: "Indio via Whitewater" and "Indio via Palm Springs," "Los Angeles via Palm Springs," etc.

WANTED, A FRIEND—is the heading of the following item from this month's "Our Times":

"Not one who will praise or flatter me. Not one to grant me liberal access to his purse strings should financial reverses beset me. Not necessarily one who will visit me formally in probable seasons of sickness or bedeck my final resting place with roses. . . . But one who will trudge the common road of life with me; who will criticize me constructively, bear patiently with my all too obvious faults, and lay the uplifting hand of confidence upon my shoulder when my best efforts seem to have failed. . . . After all, I want to live nobly, and my friend must be one whose personal influence will inspire and encourage me to press eagerly toward this—the highest of all attainments."

This true measure of a friend, written by Weldon Taylor Hammond, helps us to realize that such relationships are all too rare these days when, too often, the determination of friendship is based on how much "the friend" will loan you.

Experienced Help Available In Palm Springs

Looking for help?

The Employment Service Department of the Employer's Association stands ready to fulfill your needs with a roster of employees experienced in every type of work.

Freeman Fowler, manager of the association, said that although the employment service is limited to members of that organization, any business operating in the Village may obtain assistance in finding the proper employees. There is a plan under study now to make this same service open to home owners as well.

It was also pointed out that all prospective employees sent to apply for a job are investigated and fingerprinted for the protection of all concerned.

Information regarding the work of the Employer's Association may be obtained by telephoning 5853 or by calling at 201 North Indian avenue.

Betrothal of Barbara Neel to Wendell Delano Announced

Wedding Scheduled for Nov. 9, in Palm Springs
Community Church, Sister To Be Maid of Honor

Lovely Barbara (Babs) Neel, Desert Circus Queen of last April, is to become the bride of Wendell Delano, son of Mr. and Mrs. Phil Delano, November 9, at the Palm Springs Community Church.

This was the announcement made this week by Mr. and Mrs. C. C. Neel, parents of Barbara. Both sides of the family, in the forthcoming marriage, are well known Villagers. Mr. Neel is the owner and operator of Neel's Nursery here and Mr. Delano is co-owner of the Palm Springs Drug and Import company.

In the junior circles of Palm Springs society, both Barbara, or Babs as she is familiarly known, and Wendell Delano are highly popular.

A NATIVE DAUGHTER of Palm Springs, Babs is 20 years of age. She is a graduate of the Frances Stevens School and the Palm Springs High School, class of 1945. She was also a student at Woodbury College in Los Angeles during 1945 and 1946 and is

presently employed in the business office of The Desert Sun. While in school here Babs was vice-president during her freshman year of the Girls' Athletic Association; carnival queen during her junior year and participated in all sports.

SPONSORED by the Los Compadres as a contestant for honors as the Desert Circus Queen she was successful in winning top honors and, as a result, received nationwide publicity.

Wendell Delano, born in Riverside, was reared in Palm Springs and graduated from the high school here in 1945. He is a Navy veteran having served in that branch of the military service for one and a half years. He is presently employed by Dick Mabrey Company, plastering contractors.

Following their marriage in November, the couple plan to make their home in Palm Springs. Mrs. Paul Weir, sister of Babs, is expected to be present at the wedding when she will act as matron of honor.

Church to Resume Winter Schedule

Rev. and Mrs. Blackstone returned to Palm Springs early this week with their family after spending the summer at Forest Home. The minister will be back in the pulpit of the Community Church this Sunday when services commence again at the usual time.

Sunday School will be held at 9:45 a.m. with Mrs. William H. Veith as superintendent. The morning worship service will be held at 11:00 o'clock with Mr. Blackstone preaching on the subject "The Christian's Hope, Wealth, and Power". Special music will be provided.

The young people will meet for a buffet supper at the pastor's home, 270 Cahuilla Rd. at 5:30 p.m. and will have a brief organizational meeting immediately in the evening service. Mr. Blackstone will give a message on "America, a Great Mission Field" after which moving pictures will be shown of mission work being done in the state of Wyoming.

The Community Church has been open for services throughout the summer and it seeks to minister to the spiritual needs of residents of all denominations in the community. If you have no church home and are not affiliated with one of the other churches in the Village, you are invited to worship at the Community Church.

Certain tribesmen of India eat buffalo only once a year. A bull calf is sacrificed and eaten in a forest by the male adults.

Cash receipts from farm marketings in January, 1947, were nearly 40 per cent above January, 1946.

The first U. S. Naval officer to become an Admiral was David Glasgow Farragut, who was appointed to that rank July 25, 1866.

Alaska

By MABELLE F. BARKOW

MURDERS

August 18—We are held over in Fairbanks today because of a change in airplane schedules since our tour was arranged. There was considerable excitement in this little city of 9000 during our weekend trip to Nome and Kotzebue.

Two married men shot out their dispute over a girl, in the Nordale, the biggest hotel in town. One was killed, the other wounded. During the same period there were two murders in Anchorage. Some one in our group remarked that Los Angeles isn't so bad after all.

I learned something interesting about the pilot of our plane on the Nome-Kotzebue trip. He is William Lavery, a young Fairbanks man, who was awarded a Russian medal by Stalin for rescue of cargo and men from a disabled Russian freighter which ran into an iceberg on the north coast of East Cape in 1940. The Russians purchased American planes; Mr. Lavery, then a very young man, coached the Russian crews in operating the planes and then directed rescue and salvage operations. He was invited to Moscow where Stalin pinned the decoration on him. The story was told to me by Chuck West, owner of the Arctic-Alaska Travel Service, which arranged the Nome-Kotzebue trip.

REINDEER DINNER

I forgot to mention that at Kotzebue we were served a reindeer dinner. I couldn't eat my meat, so fed it to a poor half-starved Husky pup that was hanging around for a hand-out. I had read somewhere that the Indians and Eskimos are not very kind to their dogs and, I can believe it, for I have never seen one pet a dog or speak affectionately to one as we do to our poodles. I saw two Eskimos kick a poor dog that was walking along the beach and not bothering anyone. When the dog slinked away, both laughed heartily. Later I saw a boy, about nine, amusing himself by twisting a young Husky's ears while the dog whined from pain, but made no attempt to bite the child.

I also forgot to mention in the description of Kotzebue about the lines of fish drying in the sun. Every Indian and Eskimo hut all over Alaska has these lines with fish for their dogs. The fish are halved and the bones removed. I was told each of the dogs is fed one fish a day.

DELAYED BY RAIN

August 19—Rain started falling again last night and it is still storming this morning. We kept the radio on for the 9:30 a. m. weather and airplane departure news. Not so good. But when we met Mr. Wallace at breakfast about 11 he said the plane was still planning to leave at 1 p. m. About noon, he came out to the house, where all the ladies are staying, with the disappointing news that our plane cannot land at Juneau so now we are delayed until 1:15 a. m. tomorrow. He invited us out to dinner at the Log Cabin, a nice place near Fairbanks.

The temperature fell to 28 degrees Sunday night and the maximum is running around 65 so we Southern Californians are going to notice the heat when we get back.

August 20—At 1 a. m. our alarm clock sounded an insistent order that we get out of bed and prepare for our next step back to the states and our various homes. We sneaked around like ghosts so as not to awaken the Fairbanks lady who had opened her home to five ladies of our party. At two the cab called for us. It was still cloudy but not raining. At the airport we boarded a big Pan-American airship which had carried construction workers to Alaska. The 10 of us and two additional passengers had plenty of room to move about in a plane which seats 54.

SUNRISE ABOVE CLOUDS

We flew up and up until we looked down on a sea of clouds without an opening anywhere. The takeoff was at 3:20 and already the northern and eastern skies were aglow with the light

from the sun which appeared above the clouds at 3:45. Shortly afterward, the two little stewardesses brought us breakfast of fruit juice, fried ham, French toast, jam and milk or coffee.

The plane was flying high, I knew, but I did not know it was too high for me, for any length of time, until I began to feel as if I were going to faint. Mrs. Boren from Long Beach, who was sitting next to me, noticed I was ill, summoned one of the stewardesses, and from that time on for much of the 800-mile trip I was under an oxygen mask. We were traveling at 12,000 feet, I learned from the stewardess, who came to remove the mask as we came down out of the clouds over Skagway, which we had visited on the journey north.

What a view we had from there on as we flew along toward Juneau, capital of the territory! On both sides, as far as we could see, were lofty snow-capped mountains peaks, slate color near us, changing to blue in the distance—sharp peaks, scraped by glaciers, until they have the appearance of having been sliced off by a knife. Down their steep sides, and in the valleys between peaks, slowly move immense glaciers from which milky streams tumble in their rush to the sea.

(To be continued)

Ceramic tile long used in bathrooms and kitchens, is now being employed by designers as a surfacing material for dressing tables, nursery shelves, coffee tables and out-door furniture.

Popular elections of mayors were not generally adopted in the United States until the 1820's. In colonial days, the mayor was usually appointed by the provincial or colonial governor.

The first authentic example of a planned city is the Egyptian city of Qahun. It was built as a housing project for the men who worked on the Illahun pyramid.

High School Bus Schedule For Season Announced

Due to the fact that the local high school district has not been able to get delivery on a sixty-six passenger transcoach ordered last February until October 7, the high school district is forced to follow the same bus runs at the beginning of the coming school year that were followed last year. The high school trustees have been promised the new transcoach will be available for delivery in Richmond, Indiana, in October and that it will be available for use in Palm Springs on or before November 15. At the time the bus was ordered delivery was promised in six months.

THERE WILL BE an extension of one of the runs of the high school bus to Thousand Palms. The high school bus driven by Mr. Weeks last year will make the Rancho Mirage, Cathedral City run as before, but with a slightly changed timetable. Before this bus is taken to Rancho Mirage it will make a trip to Thousand Palms. It will leave the Bell properties at 7:00 a.m. It will stop at Edom, and at Thousand Palms en route to the high school, arriving there at 7:20. It will leave Rancho Mirage at 7:40, arrive at Cathedral City at 7:50 and return to the high school by 8:07. It will make a second loop trip to Black Tent, leaving there at 8:15 and returning to the high school by 8:25. This bus will not make a third trip to town.

THE BUS driven by Mr. George Bell will make its first round about 10 minutes earlier than last year. It will leave Paseo de Anza and Tamarisk at 7:45, and the Desert Retreat at 7:50, arriving at the school after its first trip at 8:10. It will make the second town trip, picking up students at the Plaza at 8:10 and returning to the high school before 8:30. These time schedules are announced as tentative schedules that will be followed the first day of school but may be changed any day thereafter by announcements to students made by the bus drivers.

From Page One—MORE ABOUT Lunches . . .

to pay 25c for this year. Extras, deserts, cost more.

THE CAFETERIA report prepared by Mr. Ralph Remy indicated that there was a turn-over of \$10,115.49 in the cafeteria during the school year 1946-47. Income from sale of lunches and nutrition period sandwiches and ice cream, total for 8 months \$7,411.92, total Federal reimbursement to the cafeteria for this same year amounted to \$1,203.56. Expenditures for the food during the school year amounted to \$7,994.29. Labor costs, including student help, totaled \$2,630.50. The school trustees provided operating space, equipment, and supervisory service for the cafeteria. The high school cafeteria has been subsidized by the district since the school began. Prices in Palm Springs have been lower than in most other high schools in the country.

MISS PATSY WALTERS and her sister, Mrs. Ada Chidley, are employed to manage and run the cafeteria. Last year the cafeteria served an average of about 100 basic lunches per day. They served approximately the same number of students during nutrition period and sold ice cream and milk as extra service.

If we falter in our leadership, we may endanger the peace of the world—and we shall surely endanger the welfare of our own nation.—President Truman.

The Russian NO

By ETHEL G. WHITEHORN

The time is now—not tomorrow or the day after—when American foreign policy must prove to the peoples of the world as well as to the people at home that this nation means what it says when it says what it means.

Senator Homer Ferguson, in a recent speech before the Economic Club of Detroit, made the following statement which definitely describes America's approach to peace in the world for all mankind: "We fought the war to stop the march of dictatorial government toward world domination. . . . We fought to preserve liberty and freedom. . . . We determined that the practices of aggression must henceforth cease and that nations are to be politically free. . . . We made great sacrifices in war, and we have contributed liberally to alleviate the suffering and devastation caused by war. . . . We asked nothing in loot or territory for ourselves."

"DURING THE WAR" continued Senator Ferguson, "and so long as each was threatened, our allies led us to believe their war aims were the same as ours. They joined with us in our hopes for future peace, security, and a free world, and accepted our military and economic aid without questioning our expressed assumption that they were as one with us in desiring a better world. While we strive valiantly to feed the starving, heal the sick, and restore the enterprise of war-torn people everywhere, we find Russia draining their substance, drafting their manpower, quartering her armies on their land, removing plants, machinery and raw materials, and generating chaos wherever she cannot otherwise command and control. Just treaties cannot be written, and restoration cannot proceed because it seems that chaos best meets the aims of our former ally."

Every American knows that the situation, described by Senator Ferguson, is exactly as he says. Russia's NO! NO! NO!—eighteen times in a row—to every constructive plan that has been offered for permanent peace, has cut so deeply into human patience and endurance that only a determined stand on the part of UN to either change the use of the veto, or throw it out altogether, will correct a very dangerous situation.

WE AMERICANS did not rise in our might to crush one despotism only to make it easy for another despotism to shackle the people of the world.

When Hitler and his hordes marched into other nations with the avowed purpose of enslaving them, America marched to destroy that purpose. Yet, today, only two years after the war ended, Russia has swallowed up more countries than were on Hitler's agenda. Hitler's ideologies didn't prevent us from marching, and if called on to do so, we can march again. But another war is unthinkable. How to prevent it is the prevailing question which seems to evade an answer. But we may have that answer when the General Assembly of the United Nations meets again. Either Russia is bluffing or she is deadly serious. What the American people want to see is a strong leadership in our State Department—a leadership to commemorate Teddy Roosevelt who spoke softly as he waved the big stick. Do we have that leadership? It won't be long now until we shall see.

The Greek god Pan was supposed to win battles for Greece by causing panic among her enemies.

Studies of animals indicate that the greater their mental capacities the more sleep they require.

From Page One—MORE ABOUT

Airport . . .

engineering and street departments. There may also be room there for the City Planning Commission.

Unless other accommodations are found, the City Manager believes, that the council rooms may be located in one of the buildings as well as the city court.

Six of the buildings will be demolished and the materials used in converting those it is planned to use for airport and city purposes.

Transfer of the airport properties to the city cannot be valued in dollars and cents, but it is estimated by realtors and others that the gift to the city by War Assets will in time prove of incalculable value.

It was also believed that meeting-place accommodations for the Boys' Club and veterans organizations may also be found in one of the buildings at the airport.

With an estimated 2,175,000 marriages in the United States last year, a new record was reached here. This is over one-half million more marriages than in 1945.

The women of America must wake up, not only to their power, but to their public responsibilities.—Rep. Margaret Chase Smith (R) of Maine.

Ninety million dollars worth of farm property is destroyed each year by fire.

Lions Club Even Series With DHS For Mayor's Cup

The most exciting softball game of the season played before a jam-packed crowd of rooting, shouting, fans, took place at the Field Club Tuesday during the match between the Lions and Desert Hot Springs.

The contest saw the local aggregation come from behind a five run lead, accumulated at the end of the second inning by the visitors, to win by a final tally of 6 to 5.

THIS VICTORY by the Palm Springs Lions, evens the three game series at one-all, with the third and final tilt to take place next Tuesday evening here. Winner of the series will play the Palm Springs Boys' Club, champions of the city league, for the Mayor's cup.

With the game seemingly on ice evidenced by the overwhelming lead of five runs scored by Desert Hot Springs, the Lions Club pulled their starting pitcher, Charley LaRue out of the box and replaced him with Pappy Hubbs who settled down to the grim battle of winning the game. The visitors never again scored and were only successful in making two hits off the pitching of Hubbs until the end of the game.

THE WINNING TALLY for the Lions didn't cross the home platter until the seventh inning and Hubbs' superb pitching and support of his teammates kept the visitors from tying the score in their half of the seventh frame.

The first inning brought nothing but groans from the Lion-rooters who saw visions of their favorite team going down to defeat with a four run lead. Chad Cornelius and Jack Morey for DHS both received a free ticket to first and second bases on balls and scored when Coon Mooney hit a triple. Another triple by George Ellis brought Mooney home. A double by Ellis followed.

THEN FRANK GAUTIELLO slammed out a safe double to score Ellis but when the batter tried to stretch the hit to a triple, he was tagged at third for the last out of the inning, making the score four to nothing.

During the first inning the Lions were kept scoreless but when Sam Mooney for DHS came up for his turn at bat, he touched LaRue for a three-bagger. Bob Scudder's single scored Mooney for the last run Desert Hot Springs was able to tally.

THIS WAS ENOUGH of LaRue's pitching for the night and Pappy Hubbs took the mound, for the Lions. It was in the third inning when the local batters got to the pitching of Dick Barrett for Desert Hot Springs. Sid Canales and Pappy Hubbs, in that order, both hit a double for one score. In the fourth, Earl Hough made first on balls and the next two men struck out. Pete Herrera saved the inning by smacking a double base hit placing Hough on third. Canales then walked as did Hubbs but Johnny Herrera sacrificed and Hough scored for the only run of that inning.

THE SEVENTH inning was the thriller when Hubbs hit a double: Johnny Herrera reached first on an error but on a throw to first was able to score on a second error. Earl Hough then at bat smacked one through the hands of the DHS shortstop for a third error to score Herrera.

The line score: R H E
Lions Club 0 0 1 1 2 0 2—6 7 4
Desert H. S. 4 1 0 0 0 0—5 7 3
Batteries: LaRue, Hubbs, P. Sid Canales C; Barrett, P. Joe Polst, C.

Cellulose, the solid part of cell walls of plant life, is the basic raw material from which rayon is made.

High Grid Squad Begins Practice

Following Coach Clare E. Balagh's first meeting with the football squad Monday evening of this week, 20 high school boys registered for practice and got into the daily workouts on the high school field.

The squad of players were examined by Dr. P. A. Staley Monday afternoon. The C.I.F. insurance cards were filled out Tuesday and the boys began their drills under the new coach.

IN PREVIOUS YEARS the week of practice scheduled ahead of the formal opening of school has brought out approximately 50% of the football material for the season. It is expected that a considerable number of new players will register with the team between now and the end of the first week of the regular school year. According to Principal E. E. Oertel, the initial registration for football this year has been stronger than before. Coach Balagh has expressed enthusiasm about the quality of the material that is showing up and about the spirit and enthusiasm of the boys.

THE FIRST LEAGUE game in the season's schedule is to be played on October 3, in a contest between Coachella and Palm Springs at Coachella. The first local League game to be played on the lighted field with the new bleachers is scheduled for October 10 at 8:00 p.m.

Arrangements were made Wednesday for a pre-season practice game to be played on the local field Friday evening, September 26, at 8:00 p.m. Julius Inc., who are taking care of the installation of the lighting on the high school field have assured school officials that the lighting job will be completed by September 19 so that the first practice game can be played at night on the 26th. Crews are now at work on the high school field installing bleachers which will provide a total of 2640 seats. The school is making preparations to handle record crowds for the three League games to be played in Palm Springs, the practice game to be played on the 26th of this month, and a game to be scheduled with the Alumni at a later date during the football season.

Gibs Host Large Party For Villagers At Rancho Santa Fe

Mr. and Mrs. Earl Gibbs played hosts to a large party of Villagers at his Rancho Santa Fe home last Saturday evening.

Among those present from Palm Springs were: Mr. and Mrs. Tom Kiely, Mr. and Mrs. Earl Coffman, Mrs. Peiella Coffey, Mr. and Mrs. Frank Bogert, Dutch Smith, and Mr. and Mrs. Jack Kenaston.

Veterans Open Club House Tomorrow

Desert Hot Springs Veterans of Foreign Wars, Post 6474, will open its new clubhouse Saturday night, September 13, with a gala night of dancing, games and fun. The Desert Melodeers, a five-piece orchestra just completing a successful summer season at Lake Arrowhead, will furnish the music.

Lieut. Col. Buck Elton, commander of the Desert Hot Springs V.F.W., announced that the Saturday night dances will be a regular event throughout the coming season and will be part of a weekly schedule which includes one night of bingo and a night of western dancing.

Door prizes will be awarded to holders of winning admission tickets. Dance tickets are on sale for 75 cents per person.

The Desert Hot Springs V.F.W. has leased the Idle Hour Cafe dance hall as its clubhouse for the coming year. The bar and cocktail lounge will be open to members and visitors. Everyone is invited to attend.

Delinquent Boys' Camp Selected

A camp comprising of 320 acres located in the San Jacinto mountains above Banning will be purchased by Riverside county as an additional rehabilitation center for delinquent boys. The property is known as Twin

Pines Ranch and the decision to purchase the land was made on the recommendations of the County Probation committee, Judges O. K. Morton and Russell S. Waite and was strongly urged by F. Harold Butterfield, county probation officer.

Relief Payments Hit \$226,486 During July

Relief payments in Riverside county during the month of July amounted to \$226,486, as compared to \$191,048, for the same month in July, 1946.

June, 1947, was the peak month for total payments of aid to the needy in the county for the 1946-47 fiscal year with \$193,489 going to the needy aged; \$6067 to the blind; \$19,115 to dependent children and \$6151 for general county relief to indigents.

Doing the Village

with Moya Henderson

Summer is gone and with it vacation.

Every radio program includes a recording of "School Days" and fall football spirit is coming into its own again. Journeying into Los Angeles last Friday night to take in the Ram-Redskin fracas were the Jimmy Sheas and the Gene Therieaus. Eleanor took time off from her packing to go on the week-end holiday. Last week she, and the three little boys joined Jimmy in their new La Jolla home.

Last week was a busy one in Idyllwild. Those who weren't closing their houses were partying. The bridge luncheon co-hosted by Mrs. Will Lippman and Mrs. C. H. Woodmansee at the Woodmansee home, turned out to be a coming out party for Harriet Henderson who was up and about for the first time after her recent illness. Spotted many young couples from the Village dancing at the Fern Valley Cafe—Trudy and Gordon Hall, Bob and Barbara Morrison, Lila Lee and Howard Gilbert and Babs Neel and Bud Delano.

EVERY DAY we see more houses being opened and more familiar faces on the street. Fern Jones is home this week from Laguna and Mildred Kirk has re-

turned with her daughter from Oregon. Caroline Hicks will bring her family down from Cherry Valley this week and Tani Boyle is hurrying home from Hawaii via Clipper to enter Linda in school come Monday morning. The Elmo Purnell's have forsaken the rough life now. After a month at Jordan Hot Springs they left the saddle for a shiny new Cadillac.

Week-ending in the Village recently was Shirlee Hodge who came down from Riverside to inspect the progress of her new beauty parlor now under construction near Cathedral City. Mary Helen and Alan Thompson were in town this week-end and were doing the Dunes with Bill Bogess. A merry party formed the other evening after the ball game when the Jack Gorhams, Barney Hinkles, Milt Hicks and Phil Delano met at the Dunes then migrated to the Gorham's for a midnight swim.

AN EVENT we're looking forward to with interest is the coming square dance festival in Hemet, to be held the 2nd, 3rd and 4th of October. Couples from all over this area will compete for the hundred dollar prize so it should be a very colorful and exciting tournament to watch.

PALM SPRINGS, CALIF.
Friday, September 12, 1947

The Desert Sun—7

Those masters of the doce-do from the Los Compadres, Virginia and Kenny Paul, Billie and Hutch Mosely, Alice and Joe Butler and Shirlee Hodge and Jimmy Cooper are expecting to try for the honors and it would be fine to have a good group from the Village on hand to give them moral support.

The situation: You are being introduced to someone who does not remember meeting you before and says, "How do you do?"

Wrong way: Say, "We've met before."
Right way: Say, "How do you do?" and let it go at that.

House and Structure Moving of All Kinds

"Ideal comfort conditions," summer and winter, are maintained in the Charles Treat Paine home, 1555 Knoll Road, Redlands, by the Servel Air Conditioner.

"Does a marvelous job of both heating and cooling," says Mr. B. E. Turner, 270 Arbolada Drive, Arcadia, about the Servel All-Year Gas Air Conditioner in his home.

"Does a marvelous job of both cooling and heating as temperatures demand."

Servel All-Year Gas Air Conditioning wins high praise from California home owners

"The Servel air conditioning unit has been installed in our home for the past several months, during which time we have had extreme ranges of temperature," writes Mr. B. E. Turner, of Arcadia, California.

"The Servel All-Year Gas Air Conditioning Unit has done a marvelous job of both heating and cooling as temperatures demand. Our home contains over three thousand square feet of floor space with several large plate glass windows.

"I find that the even temperature we are able to maintain with the Servel All-Year Gas Air Conditioning Unit has proved very beneficial to my sinus condition.

"I have found the operating costs to be comparable to an ordinary heating unit."

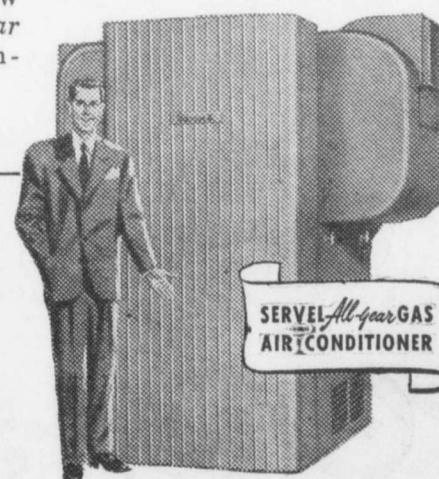

The Turners' satisfaction with their Servel unit is echoed by Mr. Charles Treat Paine, of Redlands, who says, "Since the installation of our Servel All-Year Gas Air Conditioner, the comfort conditions of our home have been ideal, both in summer and winter!"

The enthusiasm of these two California homeowners is typical. Hundreds of Servel units have been installed in homes and commercial establishments from coast to coast. Everywhere users wonder how they ever got along without the "new quality of living" it provides.

Complete in one compact unit, the Servel All-Year Gas Air Conditioner refrigerates and dehumidifies the air in summer, providing a delightfully refreshing and invigorating indoor climate. And when warmth is needed, Servel heats the air and circulates it evenly, through scientifically constructed ducts and registers. Year round, Servel filters out dust, dirt and pollen.

What's more, there are no moving parts in its refrigerating system to wear or make noise. And, too, Servel is simple to operate. You actually select the indoor climate you prefer with "a flip of your finger."

Find out today how you, too, can enjoy a wonderful "new quality of living" every day in the year. Ask your local Gas Company for complete information about the new Servel All-Year Gas Air Conditioner.

P. O. Box 236, Palm Springs**To Solve House
Cleaning Problems**

Housing opening problems need not be troublesome, according to Carles Foster and Al Kish who will operate a complete house cleaning service in the Village. To be known as Ace house and window cleaning service, it will employ the latest scientific and sanitary methods. The partners, who have operated a similar business in Riverside for many years, have purchased the house cleaning service formerly operated here by Joe Zwerling. They will have temporary headquarters at the El Morocco.

The "cock-crowing" hour in Biblical times meant a specific hour, beginning at 3 o'clock in the morning.

In 1946, 570 persons were killed and 21,600 injured on bicycles in the United States. On a bike, play it safe!

**Dick Joy Raps Radio Comics Who
Poke Fun at Traffic Incidents**

With the memory of a horrible traffic accident still vivid in his mind, Dick Joy, co-owner and manager of KCMJ, lashed out at radio comedians who on one hand urge caution and safety, on the other, poke fun at automobilists and pedestrians for the sake of an additional ripple of laughter from audiences.

Writing to the networks in an attempt to correct this situation, Joy pointed out:

"I believe one of the main reasons for radio's failure to help stop the rising highway toll is a weakness in Hollywood network supervision wherein top comedians and M. C.'s are permitted to make fun of the 'California driver' and the plight of the 'Hollywood pedestrian'."

"WHY IS IT deemed smart to make light of that horrible situation which finds a certain type

of driver intimidating and often maiming or killing others? This is the fellow radio doesn't reach with its safety announcements and those ridiculous throw-away-over-applause and music pleadings by celebrities. He needs the shock treatment, not encouragement from a 'start seeking a higher Hooper rating' and a shrieking audience which laughs at anything."

JOY CONTINUED by declaring that nobody pokes fun at the Cancer Drive or Care, an organization that ships food to foreign countries.

"Wouldn't it be wise to use the blue pencil on traffic jokes and unite radio in a solid drive to 'kill' 'death on the highway'?" Joy wrote that the accident he witnessed on Highway 99 had been caused by a "playful driver."

More than 100 times the present amount expended for mental health research is spent to enormous difference. — Pravda, stitutions.—Sen. Claude Pepper (D) of Florida.

County of Riverside, ss.

ON THIS tenth day of September A.D., 1947, before me, Elizabeth P. Griffing, a Notary Public in and for said County and State, residing therein duly commissioned and sworn, personally appeared Maury M. Pavy and Lucile L. Pavy, known to me to be the persons whose names are subscribed to the within instrument, and acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal the day and year in this certificate first above written.

(Seal) ELIZABETH P. GRIFFING
Notary Public in and for
said County and State.
My Commission expires Aug. 7, 1949.
Pub. Sun Sept. 12, 19, 26, Oct. 3, 1947.

DESERT SUN

Doll House Packed at Opening

Opening night at the Doll House Wednesday proved to be a gala evening. A large number of villagers and out-of-town vacationers filled the popular spot to brimming.

The presence of Dick McIntire and his Harmony Hawaiians proved a pleasant surprise as did the hula dancing of curvaceous Nani Hart. It is understood that the McIntire orchestra will appear nightly at the Doll House until the return of Felix and Leo from Chicago where they have been appearing this summer.

MR. AND MRS. LEO BAKER added a special note to their opening night party when they celebrated their fourteenth wedding anniversary. Helping them celebrate the occasion were Mr. and Mrs. Henry Strand, their niece and her husband who recently arrived in this country from Germany, Mr. and Mrs. Sam Stuart, Mr. and Mrs. Bert Menell, Mr. and Mrs. Robert Levin, Ruth Jones and Morrie Avery.

Mr. and Mrs. Kenny Paul were present with Mr. and Mrs. Bill Chinn, Mr. and Mrs. Elmo Purcell, and Mr. and Mrs. Hutch Moseley. In a nearby no host party were Villagers Mr. and Mrs. Earl Hough who recently returned from Balboa, Mr. and Mrs. Alvin Weingarten, Mr. and Mrs. Gordon Young, and Mr. and Mrs. Ken DuBois. At still another table sat Mr. and Mrs. Wal Spalding. Spalding on a diet for ten days, "fell off the wagon" unable to resist the delicious food.

SEEN DINING with Mr. and Mrs. Barney Hinkle were Mr. and Mrs. Harold Hicks, Mr. and Mrs. Jack Gorham and Milton Hicks, escorting attractive Frances Black.

Among the many others having reservations for the packed first night were Mr. and Mrs. Jack Freeman who hosted a party of ten, Mr. and Mrs. Billy Wright, Clarence Wooley, Etta Foster, Mr. and Mrs. Lee Bering, Mr. and Mrs. Oliver Jaynes, Warren Heath, Mr. and Mrs. Earl Neal and dozens of others.

28 Farms Opened for Homesteading

Farmer veterans of World War II will be given an opportunity to homestead 28 family size farms on the Yuma Project, near Yuma, Arizona, according to an announcement by Secretary of Interior J. A. Krug and Regional Director E. A. Moritz of the Bureau of Reclamation's Region Three.

This opening of land for homesteading comprises 1439 acres of land, with farm units ranging in size from 28 to 82 acres.

Details of the opening and also a homestead entry application form, may be obtained by writing to the Gila Project office of the Bureau of Reclamation at Yuma, Arizona.

Veterans of World War II have first consideration.

UNMATCHED EYES

About one person in every 1,000 have eyes that don't match in color. Some famous movie actresses have "unmatched" eyes.

Nickle got its name from "kupfernickel", a German term expressing the disgust of miners who, on searching for copper (kupfer) and finding ore that seemed to contain it, but didn't, said it was the work of Old Nick. Later the demon metal came to be known as nickel.

From Page One—MORE ABOUT Mother . . .

on to Milwaukee will not be near as much the thrill as the ride with her grandson.

About potatoes, Mrs. Nordberg said, they have not been known in Denmark since the government established price ceilings on them some time ago. She added that the problem of obtaining food, clothing and fuel in her native land today is worse than it was during the war years.

Stamps and coupons are needed for all commodities, and such items as shoes and fuel are almost impossible to obtain.

WE CAN'T ALLOW an electric lamp burning for a second after leaving a room with my mother around," declared Mrs. Steffensen. "She follows right behind us and turns it off."

Mrs. Nordberg has ingrained reasons for this frugality in the use of electricity. Last winter she and two elder lady neighbors did their knitting together to conserve light and fuel, she said. They all sat close together under one light bulb, rather than work alone in three separate apartments where heat and light would be required for each, Mrs. Nordberg explained.

DENMARK REFUSED aid in food stuffs and clothing from this country because her countrymen felt that other European nations were in greater need. The Danish people, Mrs. Nordberg said, are still saddled with supporting thousands of German refugees, who refuse to return to their homeland.

"We have provided schools for the German children," Mrs. Nordberg said, "but we do not teach them the Danish language, only German and English. We do not want them to become natives in our land."

DENMARK. Mrs. Nordberg said, is much concerned with the problem of communism and the fear of Russia. She added that there were already a few known communists in government offices in Denmark and other Reds are constantly making speeches and carrying on demonstrations in her country.

This is the first reunion with her children in more than 17 years. After her arrival by air in Denmark, she boarded another plane and flew for her first visit with her son, Henry C. Nordberg, 47, in Milwaukee. From that city she boarded another airliner and flew for her second visit with two sons in Los Angeles, Paul, 45, and Erik, 33, the baby of the family.

FROM LOS ANGELES, and only because flying weather was poor, the mother was forced to make the journey to Palm Springs by automobile. It had been planned that her grandson, Preben, would fly her to the Village.

"She'll have a chance to fly with Preben now," declared her daughter, Mrs. Steffensen. "We are going to wait until the weather is good sometime next week, when she will return to Los Angeles and later to Denmark."

Preben, by the way, only recently learned to fly at the Banning Airport under the G.I. Bill of Rights.

"This is a beautiful country," Mrs. Nordberg enthusiastically declared. "But I am going back to Denmark where Knud, my son, is living and where my husband is buried."

"I Just Love This Town" Croons "The Voice," Sinatra

Building Home, Plans to Broadcast from Village

"I just love this town," exclaimed Frank "The Voice" Sinatra, in explaining the reasons why he is building a palatial home here and his interest in The Stables as a co-partner with Charley Morrison and Jimmy Durante.

"Look at me," declared Sinatra. "Don't I look like I love this town?" and he pointed to the deep sun tanned color of his face. "I have great plans for my home here and especially for The Stables," he added.

THE BOBBY SOXER'S idol then went on to say that whenever possible he was going to broadcast his radio show from an auditorium, he said, it is planned to construct at the former Roger's Stables, big enough to hold an audience of 300 persons.

Sinatra, who was interviewed by a Desert Sun reporter as he and friends sat dining in The Dunes, said that without a doubt, Durante also would make as many of his radio broadcasts from The Stables as possible and that other radio shows would be brought to Palm Springs.

"We are now looking for a name similar to that being used by KCMJ, RadiOasis, so that the broadcasts from here will be easily identified with that of Palm Springs," said Sinatra. "Once we get underway here, it will save a lot of trips into Hollywood to do a show and then only to rush back to the Village," declared the songster.

The army found that soldiers wanted about one-tenth of their daily food to be meat, and from one-third to two-thirds of their food in the form of fats.

Villager Honored in Chicago

Mrs. Samuel H. Brezin was chosen by the Chicago Sun for public tribute because of the many volunteer hours she has devoted to the Chicago Have a Heart Charities and several other charity organizations.

Mrs. Brezin and her husband have spent the last three seasons in Palm Springs as winter residents.
